Dear Dr. Jain,

Greetings from C.M.C. Ludhiana. It was wonderful to have had an opportunity to interact with you at the Arthroplasty course recently. The visit to your Hospital was certainly one of the highlights. I was amazed to see what one man can do if he sets out for it. I think it is a bigger challenge considering you have achieved all that in a Govt. set up. For me it was certainly worth the time spent in Mumbai.

I have had an opportunity to visit various centers both in India and abroad. I can assure you I have not seen anything like your operating rooms anywhere in India, including in Mumbai, which is considered the Mecca of Indian Orthopaedic surgery. I am sure there are very few centers even abroad which can possibly boast of similar facilities. I am also very impressed by your dedication to the development of Orthopaedics in India. It would be wonderful to be able to open out your doors to others in the country, both for learning and for treatment which can be done with a little help from the railways.

Thanking you once again for a wonderful experience.
With kind regards and all good wishes.

Sincerely yours,

Dr Bobby John, MS. DNB
