

To
Dr J.P.Jain,
Chief Hospital Director &
Chief Ortho/joint Replacement Surgeon
Jagjivan Ram Hospital,
Mumbai Central

dated 28th Aug,2014

Dear Jain,

Indian Railways was privileged to have a perfect orthopedic cum Joint Replacement surgeon like you, who served JRH and all over Indian Railways' orthopedic patients for a long period over more than decades with your highest skill. Your sincerity, dedication to the profession and caring attitude to each & every patient is a lesson to all surgeons. "Treat the patient being a patient" might be your goal. While I was in JRH for Knee replacement of my wife, I used to attend & witnessed your surgery either of knees or hip replacement or both in a same day. In my opinion you are a perfect surgeon who never repeats the steps of surgery; being so much confident of steps, having accuracy of measurement to fit prosthesis and also skill of bone grafting to make a good platform to fit prosthesis both for extremely deformed knees and also for hip having no wall of acetabular Cavity, created by you with bone graft where femoral head could be stable & functional.

You are now in the highest peak of skill & perfection of joint replacement surgery, your retirement will be a great loss to the Indian Railways. You will be an asset to any Institution where ever you will be attached.

I wish your all success in life.

Dr S.P.Mukhopadhyay
